

## Targets of the 5<sup>th</sup> National Environmental Program

### OVERALL TARGETS

Contribution to ensuring the environmental conditions for sustainable development

<b>S T R A T E G I C T A R G E T S</b>	<b>1. STRATEGIC TARGET</b>  Improving the environmental conditions of human health and quality of life, reducing the effects of environmental pressures	<b>S T R A T E G I C F I E L D S</b>	1.  Improving air quality	<b>S T R A T E G I C T O O L S</b>	1.  Improving environmental approach and way of thinking  2.  Strategic planning, development policy  3.  Development of eco-innovation, strengthening of environmental research and development  4.  Social participation, environmental information  5.  Legal regulation and law enforcement  6.  Environmental protection in territorial policy  7.  Environmental protection in settlement policy  8.  Contribution to the development and implementation of EU environmental policy  9.  International cooperation		
	<b>2. STRATEGIC TARGET</b>  Protection, restoration and sustainable use of natural values and resources		2.  Reduction of noise pollution 3.  Providing healthy drinking water 4.  Sewage drainage and cleaning, sewage sludge treatment, utilization 5.  Protection of green surfaces, development of green infrastructure 6.  Preservation of biological diversity, nature and landscape protection 7.  Protection and sustainable use of soils 8.  Protection and sustainable use of waters 9.  Environmental remediation 10.  Promotion of environmentally conscious production 11.  Reducing environmental impacts of consumption 12.  Improving energy saving and efficiency, increasing utilization of renewable energy 13.  Waste management 14.  Reduction of greenhouse gas emissions, preparation for the effects of climate change 15.  Environmental aspects of agriculture 16.  Environmental aspects of forest management 17.  Environmental aspects of managing mineral resources 18.  Transport and environment 19.  Tourism and environment				
	<b>3. STRATEGIC TARGET</b>  Resource saving and - improving efficiency, greening the economy and strengthening its circular operation		20.  Chemical safety 21.  Nuclear safety, radiation protection and environment 22.  Environmental damage prevention and remediation				
	<b>4. STRATEGIC TARGET</b>  Improving environmental safety						
	<b>1. HORIZONTAL TARGET</b>		Strengthening society's environmental awareness				
	<b>2. HORIZONTAL TARGET</b>		Improving ability to adapt to climate change
